- FREE of charge.

Training

For new customers, or experienced customers that need a refresher course, Teledyne API offers 3 types of training:

- **Level I:** Theory of operation, maintenance and calibrations. Typically for customers new to Teledyne API instruments. This class covers one instrument type per day.
- **Level II:** In-depth theory of operation, pneumatic and electronic troubleshooting. Typically for customers with Teledyne API instrument experience. This is a 5 day class that covers each of our instrument types. This class is normally held at our San Diego Facility.
- **Customized Training:** Tailored to meet your specific training needs.

Subject to change without notice. Printed documents are uncontrolled. SAL000033 A (DCN 5311) Customer Service/02/27/09.
